Transit Board Says Buses for Central Area Included in Bond Issue Plans

By DICK OSBORN

The Alameda - Contra Costa Transit District today told The Sun that any proposed bond issue offered to the voters would include funds, not only for the purchase of Key System, but funds for a fleet of new buses for service in the Central Contra Costa area.

This statement came in a letter in reply to an open letter printed on The Sun editorial page February 28.

Robert K. Barber, president of the transit district board, said:

"Any proposed bond issue offered to the voters in the district would relate to a total transit plan to include not only the useful properties of Key System, but a fleet of new buses for service in the Central Contra Costa Area.

"BY BOND ISSUE time, we will be in a position to describe more exactly the manner in which the district will offer improved service for Contra Costa County in place of the present Greyhound operations.

'To this end, our engineers have been authorized to give more study to Contra Costa transit needs in terms of equipment, routes and service."

The Sun editorial suggested that Central Contra Costa County be excluded from any bond issue plans by the two-county transit district and recommended that some sort of special service district be set up by the transit group to confine the bond issue to East Bay communities which would benefit directly from the Key System purchase.

In reply Barber stated:

"THE TRANSIT District law makes no provision for the special service districts and it may take an amendment by the Legislature to permit the creation of such districts within our boundaries.

"This is a suggestion worthy of full exploration and the matter is now under study."

Barber added that the district's plans and intentions are "to develop operations that will provide sufficient income to meet all expenses and fixed charges without the imposition of any taxes on properties within the district.

"Our studies indicate this is feasible and attainable at the same time we improve service in the Central Contra Costa area," he said.

Commenting on The Sun editorial, Barber noted: "It cannot be said that residents of Contra Costa County would 'pay the bill for something which will give them very little benefit.' If this were the case, we agree that it would be eminently unfair to Central Contra Costa County."

"RELATIVE COSTS and benefits are important to both counties and are problems to be faced now in our planning stage as well as in the future."

Barber explained that it is not the ultimate aim of the district to provide rapid transit in the same sense as that planned by the San Francisco Bay Area Rapid Transit District.

He said: "It is our long-range objective to provide a system of improved local and feeder transit service and to enter into the inter-urban field only where such is not provided or contemplated by the five-county organization."

Barber termed The Sun editorial "fair minded" and noted that the transit board "welcomes such valid comments and in the same spirit, makes these replies."

He concluded with the statement:

"Please be assured that the Board of Directors is mindful of the situation covered by your open letter and it does not pretend to have a ready solution to the problems you raise.

"It is hopeful, however, that by a fair and sincere approach, it can meet the desires and needs of the entire district and to this end, it recognizes your pertinent observations as an expression of public opinion not to be dismissed lightly."

Sun Editorial Is Basis for Transit Dist. Comments

The Alameda - Contra Costa Transit District Board of Directors replied today to an open letter printed on The Sun's editorial page February 28.

In that open letter The Sun suggested:

That the Alameda-Contra Costa Transit District is the logical body to purchase Key System, thus ending the possibility of crippling strikes such as have occurred in the past.

THAT SUCH A move would be of immense benefit to the communities on the East Shore of the Bay in Alameda County, but would be of little benefit to the vast majority of residents in Central Contra Costa County, including Pleasant Hill, Walnut Creek, Orinda, Lafayette, Alamo and neighboring communities.

That the benefit to these areas would be in no way proportional to the cost.

That the transit district board should exclude this portion of Central Contra Costa County from the bond issue which is tentatively planned for November.

That it is not, after all, fair to expect the residents of this area to pay the bill for something which will give them very little benefit.

THAT IN RETURN, this area would not expect the residents of Alameda County to foot the major portion of the bill for millions of dollars worth of rapid transit facilities for Central Contra Costa County.

It was in answer to these statements that Robert Barber, president of the board of directors of the Alameda-Contra Costa Transit District, made the statements that will be found elsewhere on this page.

Joe Duffel Heads Red Cross Drive

Appointment of Joseph A. Duffel as campaign manager for the Orinda - Moraga - Canyon Rheem division of the 1958 Red Cross campaign was announced last week by Robeson E. Smith, a vice-chairman of the Mt. Diablo Chapter.

Duffel is president-elect of the Orinda Rotary Club and an officer of Morinda Corporation whose offices at 72 Moraga Highway will be headquarters for the campaign in this area.

Smith, who conducted the Orinda campaign which exceeded its goal last year, called upon all Orindans to get behind the effort 100% this year.

"The American Red Cross is truly in its year of greatest crisis," he stated. "Disaster relief on a national scale has been far in excess of expectations for the past four years and reserve funds have been completely exhausted."

Commissioned by Act of Congress over fifty years ago as the nation's sole disaster agency, Red Cross relies on the voluntary contributions of the people for its funds.

"It is the nation's highest manifestation of democracy at work," Smith concluded, "with neighbor helping neighbor on a purely voluntary basis. All of us must support its basic principles to our utmost."

Duffel pointed out that the Mt. Diablo Chapter has never been an agency of the United Crusade, because it is impossible for the Crusade to guarantee its minimum budget requirements in Central Contra Costa, as yet.

"The Mt. Diablo Chapter is able to carry its entire program with only one full time and one part time employee," Duffel pointed out, "keeping overhead to a minimum."

Scores of volunteers contribute hundreds of hours a week to a wide variety of projects, including first aid instruction, swim-to-live programs, gray lady services to hospitals, home service for hundreds of service men from this area, transportation for the sick and an emergency canteen organization on an hourly stand-by basis for any local disaster.

"Any one familiar with the vast scope of activities by this one chapter which was created by and belongs to the people of this area," concluded Duffel, "will not hesitate to help in the annual drive to continue its support."

The drive is scheduled to start March 10th and will continue through the month. Many more workers are needed in the Orinda area. Solicitation is broken down so that any worker can complete her assignment in a couple of hours and be finished.

Howard Given 18 Month Term In Federal Prison

Ronald A. Howard, former executive secretary of the Contra Costa Housing Authority, was sentenced to 18 months in Federal Prison by Federal District Court Judge George B. Harris yesterday morning in San Francisco.

Howard will be turned over to the custody of the Attorney General of the United States in Washington, D.C. The Attorney General will decide where Howard will serve his 18 months in prison.

THE DECISION, according to the law clerk of the federal court, will be handed down within two or three days.

Howard was found guilty by a federal court jury of stealing $793 of pipe from the government for use at his Alhambra Valley home.

Howard was charged by a federal grand jury of the theft last December. The specific charge on which Howard was convicted was that he took 2574 feet of pipe in 1924 when he was an official of the Public Housing Administration in San Francisco.

He claimed throughout the trial that he was given the pipe by a Santa Barbara Housing Authority official who is now dead.

JUDGE HARRIS, in the early days of the trial in February, charged Frank B. Cornish, Howard's attorney, and Howard with "telling fairy tales to the court."

Meanwhile, the Contra Costa Grand Jury is continuing its investigations into the operations of the Contra Costa Housing Authority. The county grand jury's investigations were curtailed last June when a federal investigator, J. J. Sullivan, compliance division of the Federal Home and Housing Administration, refused to testify at a grand jury session on the matter because of federal implications in the case.

Mothers' Club To Discuss Reorganization

The regular March meeting of the Orinda Mother's Club will be held on Tuesday at Pine Grove School at 8 p.m.

The Mother's Club has felt for some time the need for more parent participation at the individual school level. As a result of the interest shown, the Mother's Club board reviewed the by-laws and made suggestions for gearing them to the individual school level.

The purpose of the meeting will be to discuss the advantages of retaining the status quo or setting up individual Parent's Clubs with a Cooperating Parent's Council for the purpose of continued coordination and cooperation among the schools that has proved so valuable in Orinda.

This is a general discussion meeting to give every parent an opportunity to hear and discuss all aspects of the situation.

Mrs. Dennis O'Connor will report on the plans and progress of the Mother's Club Dance to be held at Diablo Country Club March 22nd. Tickets will be available at that time, according to Mrs. Douglas Knight, phone CL 4-2366.

Rheem Boulevard Reopening Due

Group Surveys Outdoor School Site in Sierras

Orinda School District's recreation director, Frank Isola, this week reported that he and architects had completed a preliminary survey of the district's outdoor school site near Lake Tahoe on Highway 89.

Isola said he and members of the architectural firm spent a day walking around the seven-acre site in order that the architects might get a better idea of the cost involved in improving the land which is being offered at the school district by the U.S. Forestry Service under its "Operation Outdoors" program.

Under the plan, the school district would be given the site but would be bound under a long-term agreement to make certain improvements on the land.

Such improvement, Isola said, might include such things as water and santitation facilities and buildings which would be used during the summer nature study and conservation program.

Isola noted that the school district was offered the land a year ago and that the district must soon decide whether or not it will accept the government's land offer. Otherwise, he said, the land will be made available to another district.

The school board recently allocated $750 in order that professionals could be hired to survey the site and make cost estimates on its development. No estimates, Isola stressed, would be available until the current professional survey is completed.

"At present," he said, "we have no idea what the cost of developing the site might be."

He explained that it is estimated that more than a hundred California school districts are currently participating in the outdoor program.

Rotary Hears Isola Speak

The Orinda Rotary Club Tuesday heard Frank Isola, superintendent of Physical Education, speak on the school district's proposed outdoor education site at the north end of Fallen Leaf Lake off of Highway 89 and near Lake Tahoe.

Isola explained that the purpose of the outdoor school site, which may be acquired by the district from the U. S. Forestry Service, is to teach children nature study and conservation.

He stated that the school board had approved an expenditure of $750 for the purpose of making a survey and estimating what it would cost to develop the proposed site.

Robeson Smith presided and Joseph Longacre was program chairman.

Supervisor-Sheriff Fight Breaks Out in Open Warfare

Three supervisors of Contra Costa County have avowed themselves "to beat Sheriff Harry A. Brown" in his campaign to seek reelection.

Supervisors Ivan Goyak, first district; Mel Nielsen, second district and W. G. "Bud" Buchanan, fourth district, all issued, within one week, statements blasting Brown and "his lack of cooperation and administrative ability."

GOYAK, RICHMOND supervisor, will not seek reelection to his office "due to the press of business and family matters," but "will work as diligently as I did for Brown, against Brown in the coming Sheriff's race."

At least three candidates will oppose Brown in the June primary.

R. W. "Ron" Orin, police chief of Concord; Inspector Ray Stoeffels, Sheriff Office and Walter Young, sergeant, Sheriff's Office.

Political observers note that Orin seems to be the most powerful candidate for the elective office. Stoeffels is in the hospital and will be operated on in the next few days, according to reports from Brentwood.

Stoeffles has not as yet taken out his filing papers whereas Brown, Orin and Young have.

BUCHANAN STATED that Brown has never tried to cooperate with the board of supervisors. "In fact," he said, "he backed unsuccessful candidates in the second, fourth and fifth districts."

Buchanan was referring to Clarence Wallace, second district candidate in 1956; Sam Conte, fourth district candidate in 1956 who is currently running for 10th district assemblyman on the Republican ticket and Jake Frederickson, the fifth district incumbent.

The battle continued to flare when Brown charged that when he was sick, the board of supervisors tried to replace him with another man.

THE SUPERVISORS retorted to Brown's charges saying "Look who's trying to run what." The board by intent indicated that Brown was trying to run the board of supervisors by backing other candidates for the office.

Ray Taylor, third district supervisor, who was board chairman last year, has not made any statements concerning the sheriff-supervisor hassle. Taylor faces the opposition of at least three candidates in the June primary. Bill McIntosh, Walnut Creek; Tom Coll, Concord and Bill Goheen, Pleasant Hill.

In answer to the charges and counter charges being hurled by the supervisors against Brown, Brown said "Considering the sources, NO COMMENT!!!

Now, Hear Ye, Hear Ye! Candidates Night Soon

Hear ye, hear ye, hear ye.

It is hearby announced that all interested citizens, residents and the populace at large is invited to attend the Traditional Sun Candidates Night to be held at Las Lomas High School April 1.

Those who attend may rest assured that there will be speeches, debates, action and controversy as candidates for the Walnut Creek City Council and Supervisor, Third District, present their views.

THE MEETING will be held in the multi-purpose room, which seats 250 people, so first come, first seated. A public address system will insure that all those with adequate hearing will be aware of what is going on as the political smoke flies thick and fast.

There will also be a timekeeper, who will be equipped with a loud buzzer and other warning devices of sufficient strength to insure that no candidate exceeds his allotted time at the microphone.

So why not plan now to make it a family affair. This will provide a good opportunity for the youngsters to see our democratic governmental processes in action.

And it will be a fine opportunity for adult members of the family to acquaint themselves with the issues at stake, in order to vote more intelligently on election day.

AS THE PROGRAM is tentatively set up, the candidates for supervisor will appear at 8 p.m. Then those attending who are not residents of Walnut Creek proper may leave before the city council candidates have their say.

It is expected that the council candidates will start at 9 p.m.

Keep your eyes on The Sun for further details. Information will appear each week until April 1, when the Traditional Sun Candidates Night will be held at Las Lomas High School at 8 p.m.

Safecrackers Fail Again At The Willows

Would-be safecrackers tried and failed again this week in a pass at the old safe at the Orinda Willows.

According to Sheriff's detectives, the yeggs gave up the job after drilling a single hole through the safe which is older than the cafe, one of the first structures built at the Crossroads.

$100,000 in Library Fund With Two Recent Bequests

Two recent substantial contributions have nudged the Orinda Library Building Fund over the $100,000 mark, President Perc Brown announced this week.

However, he said, approximately $20,000 more will be needed before construction can begin late in April. An approval list of contractors has been made, Brown explained, and sealed bids will be opened March 28.

New Sponsors who made the recent contributions, Brown said, are Mr. and Mrs. Mark Noble, 6 Crane Court, and Mr. and Mrs. George P. Eberhart, 57 Van Ripper Lane.

"We earnestly hope the rapid progress being made on the building project, as demonstrated in the following progress report," Brown said, "will influence and persuade other new major contributors to join hands with us now in pushing this building fund to its goal. Many smaller contributions are needed, too."

THE LIBRARY BOARD issued the following progress report to the community:

"The library site was graded the week of March 3. Wednesday night, March 5, the building committee approved final plans and specifications and also screened and agreed upon a list of general contractors.

"Tuesday noon, March 11, Aitken and Collin, Orinda Library Board's architects, mailed forms of proposal and specifications to nine general contractors. The sealed bids will be opened at 2 p.m. Friday, March 28.

"Considering various time factors involved it is intended actual construction shall start not later than April 27 and possibly one week earlier weather and other contingencies permitting.

"The Orinda Library Board reserves the right to reject any bids including the lowest. We hope bids submitted are extremely close to, or preferably under, the professional estimates we have been working with or we shall have to reject them. The community should clearly understand that we hope and expect to proceed with construction despite the fact it is quite certain we need approximately $20,000 in new contributions to build and properly equip this library.

"THE MORE NEARLY EXACT sum remaining to be raised can be finally determined when we see the construction bids submitted to us on March 28. But in any event that knowledge is unlikely to appreciably change the additional sum of money still needed.

"There are two important reasons why we have elected to go part way out on a limb. The most compeling reason is that competent advisors tell us that reliable general contractors of a size interested in a project of this relatively small scope are not very busy right now, so our closing date for sealed bids has been timed to get ahead of a considerably larger volume of construction coming to bid in the Bay Area in April. The other, but lesser reason, is to insure completion before any fall rainy weather is likely to set in.

"THE BUILDING FUNDS, including pledges and all sources, has just crossed $100,000. The last $20,000 is hard to raise but it is needed and we will need it soon. By May 1, there will have been two years of continuous, organized effort. We hope now that Orinda knows the library really will be built. The response will be prompt and sufficient to complete the fund-raising goal.

"The Orinda Library Building Fund acknowledges with gratitude and pleasure receipt of a letter from William Fleager stating that since construction is now underway the remainder of the Orinda Fiesta funds approximating $5,600, heretofore pledged to the Orinda library building, is now available to it upon call. That sum is included in the present $100,000."

Moraga Plan Hearings Continued to March 25

After vehement objections were voiced to two features of the proposed revised general plan for the massive, 9,500-acre, Moraga area Tuesday night, the county planning commission set a final hearing and decision on the plan for March 25.

Tuesday night's hearing, the second on the Moraga master plan, was attended by a jam-packed crowd in the auditorium of the County Administration Building.

The two factors in the proposed revised plan which were sore spots with the many objectors were:

1. An increase in the controlled manufacturing area which would add 90 acres to its size.

2. The neighborhood shopping center which is proposed in the Burton area on the west side of St. Mary's Road.

CONCERNING Utah Construction Company's request for an increase in the area earmarked for controlled manufacturing, Utah's attorney, Bestor Robinson said that Utah "took a whipping" when the orginal Moraga general plan was adopted in April of 1955.

Declaring that there is no way of knowing how large an area will be required for controlled manufacturing, Robinson said that residents had no need to be alarmed over the company's request.

"At least," the attorney asked, "put a reservation on the map to the effect that certain areas be tentatively marked for controlled manufacturing, for consideration for future action."

Utah, which owns more than half of the 9,500 acres under consideration in the master plan, is asking a 90-acre increase of the controlled manufacturing area from the present 190 acres.

Among objectors to the proposed increased in the manufacturing zone was Richard Bartle, chairman of the Orinda Association's planning committee.

BARTLE SAID his organization is concerned over three aspects of Utah's request. Access, Bartle said, is one matter of concern. Also, he explained, the associa-Shepherd Canyon route is now definitely planned."

Among others voicing objections to proposed increases in the controll manufacturing area was Thomas J. Twomey, assistant dean of St. Mary's College.

HE SAID THAT the college administration considered the 180-plus acre area devoted to controlled manufacturing in the present Moraga plan "more than enough to take care of the population of the areas and adjacent areas" for now and the future.

"It is our belief," Twomey said, "that controlled manufacturing should be limited to that and not allowed to extend to the Redwood Canyon area."

Planning Commissioner Arthur Young commented, "The issue of controlled manufacturing has been thoroughly sifted."

Objections to the Burton shopping center included those from the Glenside Improvement Association, the Rheem Center Merchants' Association and the Rheem Valley Home Owners Association. Petitions were signed by approximately 350 persons from the Glenside group.

MEMBERS OF the planning commission explained that the original proposal for a Burton area shopping center envisioned about 50 acres. The revised proposal is a 10 to 12-acre shopping area in the Burton vicinity.

In other Tuesday night action, the planning commission approved plans of C. L. Spear for a 19-acre subdivision, Happy Valley Oaks in Lafayette.

Also approved was the plan of Mrs. E. M. Netherby for tract 2598, a 30-lot subdivision on the west side of St. Mary's Road in Lafayette. Seven of the lots may be less than the required size for an RA zone.

Rezoning Fight Is Killed by 8-1 Decision

The Orinda Association Board of Directors Monday night, by an eight to one vote, instructed attorneys to dismiss the Association's appeal of the County Planning Commission's rezoning of the Orinda Pine Grove to an administrative office zone.

Concurrently, the Association resolved to work with the present developers, Associated Investment Company of Oakland, on the development of the controversial site.

Attorney Gladys Witkin, reporting on the status of the Association's suit, said that the County was taking action to have the appeal suit dismissed for lack of prosecution. The appeal had been pending for approximately eight months.

The Board's vote to dismiss the appeal came after Board President Art Flint stated that the board should "take action on the appeal rather than let it be dropped for lack of action."

FOLLOWING FLINT'S MOTION, the Board voted to "dismiss the appeal due to changes in circumstances, both legal and practical" since the suit was filed.

In other business, the Association's board deferred action on the sponsorship of an Orinda musical pending a report from the ways and means committee. The Association will vote on the matter of accepting sponsorship of the "Absurdia" revival in two weeks.

Meanwhile, it was reported that the group of people in favor of putting on the show next spring are willing to stage the musical under any name. The original name "Absurdia in Suburbia" was temporarily put aside after the Orinda Mothers' Club, original sponsors of the yearly satire, laid claim to the name and protested its use by any other sponsoring organization.

THE MOTHERS' CLUB had sponsored the annual spoof of suburban living for the five years "Suburbia" was produced here. For the past several years, however, the show had been discontinued.

At a recent meeting of the Association, Mrs. Winnie Gilmore and Mrs. Marie Monahan approached the Association with the matter of a revival of the production next spring. Since that time, the Association, having given a tentative nod to the sponsorship, has had the matter under discussion.

At Monday's Association Board meeting, Mrs. Monahan presented an extensive list of some of the people who would be willing to work on the show. Heading the list was the name of Mr. and Mrs. Joseph Downes, who have voluntereed to take charge of the production.

DAVID HUENERGARDT, president and director of the Board to present plans for the theater. Huenergardt demonstrated his talk with scale models of the arena-type theater.

He described the theater as a phenomenon "new and unique" in the Bay Area.

A native San Franciscan, Huenergardt went to New York City 10 years ago and worked for several years with the National Broadcasting Company. He later appeared in several Broadway productions before entering summer stock where he became interested in the present theater plans.

Huenegardt said he decided to go into an area which had never known summer stock and eventually decided on the Bay Area.

THE PAVILION THEATRE organization currently has an eight-acre site under option on Ygnacio Boulevard and plans to build a year-around auditorium there. It will seat 2,000 persons, Huenergardt said, with no one sitting more than 15 rows from the stage.

At present, the theater is selling stocks to the public. The theater will cost approximately $275,000. The domed arena, Huenergardt said, will cost only about a fifth what a conventional structure would cost.

Plans for the facility, Huenergardt explained, include "a fully profesional season similar to those at the Curran and Geary in San Francisco."

School Boys Find Meaning In Word "Conservation"

By BARBARA BEDAYN

"Sure I know what conservation means," grins Jerry Koch, age 10, chewing on a blade of grass. "I like it when I can lie back and see the blue sky through the trees and hear the birds. I like all this green grass (waving his arms) and these wild flowers that are coming out on the hill. I wouldn't like it if it were all covered up with houses and roads."

"Conservation means saving forests," says Chris Nedderson thoughtfully. "If we burn the trees or chop them all down, pretty soon we won't have any left unless we do a lot of planting. And if you take away the forests and the grass the soil washes away and then the land lisn't good for anything."

". . . Well . . . conservation to me means the mountains left so I can go on pack trips and fish . . . and I like to watch the chipmunks," says Rod Dedavn with a far away look in his eye. "You know, I've always wanted to see a flying squirrel . . . I hope there'll be the mountains and the wild animals and the trees left for my kids when I grow up. Golly, there'd better be!"

These are excerpts from the informal but earnest conversation of a group of Mr. Hardy's 5th graders who were sprawled on the green grass of their Orinda School's Wildlife area discussing what this word. "conservation", is all about, anyway.

Their boyish words have covered the field of conservation of natural recources surprisingly adequately.

The adult listening wonders how much of their clear concept is due to the unusual background of school wildlife area study which Orinda is developing.

"Orinda will be famous over the whole country for this program," says Bill Drake of Nature Conservancy.

Do you realize that this is the only place in the country where every school is participating in some sort of Wildlife Area program?"

No wonder these boys have opinions on the subject of conservation. They have been giving it considerable thought for months.

Each of the elementary schools is planning or working on a small wildlife area adjoining or sometimes on the school property.

Each area is different from the other because each is planned according to what the individual school has to offer.

Glorietta School, for instance, has a goodly collection of California natives planted along a beautiful creek. These introductions were necessary because the only native plants there were willows. Fill from the original school construction had covered any others.

Orinda School, on the other hand, uses a little draw filled with many interesting native plants and animals, just behind the school property.

Del Rey's area is so near the school buildings that children can identify plants and birds without leaving their rooms; while Sleepy Hollow's proposed area, a beautiful tiny hanging valley, comes the closest to being the Nature Conservancy's ideal of a true "undisurbed area".

In addition to the school wildlife areas, the Orinda School System, with a staff led by Miss Cynthia Knox and Mr. Frank Isola, have conducted a Sierra Camp for several summers where the children study forestry, weather, geology, watersheds, geology, plant and animal life, conservation of natural resources, and related subjects.

Local Doctors Will Stick To Original Plans

Members and directors of the Walnut Creek Hospital Association have decided to go ahead with their plans to locate a $700,000 hospital close to Walnut Creek, and they have sent a letter declining an invitation by directors of the Martinez Community Hospital that they join forces in financing a new hospital further north.

Bruce Copeland, publicity committeeman, said after a meeting of the local doctors that thorough discussion was held on the proposal.

The conclusion was that a hospital close to downtown Walnut Creek is preferable.

The Martinez doctors proposed that a 150-bed hospital be built about two miles further north than the proposed local site at Pleasant Hill Road and Geary Road, where the Walnut Creek Hospital Association plans to build a 50-bed hospital.

Robert Williamson, administrator of the Martinez Hospital, said that a site including 160 acres at Brackman Ranch has been purchased. It is at the west end of F Street in Martinez area.

He said that the two groups could build the larger hospital for between $2.5 millions and $3 millions.

Copeland commented that the doctors of the Walnut Creek group want a hospital which will be for the Walnut Creek, Lafayette, Orinda, Pleasant Hill area, and easily accessible to those sections.

John Nejedly, the Association's attorney, was recently chosen president of the board. James Kirkpatrick is vice president, Larry Winter, secretary, and Copeland is treasurer.

Orioles Plan Bridge-Lunch

A fund-raiser for the Orinda Orioles of the Mt. Diablo Therapy Center is March 26 when some seventeen tables of members and their guests will convene at the Camino Encinas home of Mrs. Madison Fowler for a benefit bridge luncheon.

The hostess will be aided by Mrs. Kenneth Stringer through whom a limited number of tickets are available at CL. 4-2291.

The annual membership tea honoring associate and inactive members and new and prospective ones was last month at the Sally Ann Road residence of Mrs. Frank Quinn. Camellias and azaleas graced a tea table covered with a handmade Chinese linen cloth. The Quinn home features many objects d'art collected by the family during residence in the Orient.

Suburbia Scribblings

By MARIE MONAHAN

It's so peaceful in the country . . .

Coudn't sleep a wink last night. The neighborhood cats were Meowling it up, AWFUL! Like Les Enfantes Terribles before a 2 a.m. feeding.

THE MORNING QUIET after the children's hectic run for the school bus is shattered by the shrill yappings of a puppy. The Man Next Door has the old buzz saw going full blast on the oak trees and the monotonous drone disturbeth the ear.

A car careens around the curve like a rampant roller coaster. And the Cakookoo call of that CRAZY bird staccatos the morning serenity. The afternoon Kindergartners are out playing cowboys, kicking each other, popping cap guns and corraling the new kittens. The novice lady gardener is giving the grass a trim, but the lawn mower sounds like a runaway plow on the So' Forthy! And THERE goes the telephone!

IN A BUCOLIC BURST, we gather up the leftover toast and scatter it for the bird's breakfast. No Manners, these Jays, who descend like a stream of Jets and scream and squabble over each tossed crumb. The sibilant sound of a swooping plane gives us a start (my heart!) and the telephone rings again to disrupt our Tea & Toast on the terrace.

NOON HOUR NOW and the local scene is comparatively quiet. The roof just about blows OFF w/a BOOM as another Jet breaks the sound barrier high above in the wild blue yonder. The motor of the milk wagon grinds up the hill accompanied by growls of assorted canines, who, like their feline friends, obviously have 9 lives! Clearly audible are the pre-Kindergarten crowd as they cry & protest coming in for "Lunch & Naptime, dear!" AND the telephone again!

Hark! The slowing-up screech of the mailtruck brings a batch of mid-month bills and this calls for another cup of java to jolly ourselves through those "gentle reminders." The hillside shivers & shakes as a big delivery truck rumbles uphill in low gear and HERE comes the Cleaner Man. Before we take a second sip of our old cold coffee, we have to get the shirts for the laundry. And tell the TV repair man where to go! (This way, please!)

TWO O'CLOCK TEA TIME . . . Hah! Here come the Spray people, ahead of schedule this year. Be right back as soon as we cover the rhododendrons, fold up the garden furniture, locate the four hoses we put away last fall. Mind answering the phone? The man who borrowed our blueprints 3 mos. ago suddenly scoots down the stepstones. Have we time to go over the plans with him?

Well, carry me back to Ol' Virginny! . . . Wonder how things are back in Washington Square! We know ONE thing for sure. Those smart city pigeons have more peace than we do here!

How are things in Glocca Morra?

Domicile Data . . . Marian & Dick Farmer (he's the Sports, Unltd. man) are leasing the former Bennett house on El Toyonal w/their three, Ann and the boys . . . Newcomers to LaCuesta are the Mark Kermit family. He's County Traffic Engr., his wife Penny, a former art teacher. W/their three youngsters Eve, Eben & Jessie, the Kermits are enjoying the new home built for them by Stanley Harris, another LaCuesta resident. A BUSY DIZZY time for the newly-arrived Rodney & Ann James of Ivy Drive who moved here from British Columbia just two wks. ago, welcomed their third child, a son Christopher, a wk. later.

OCCUPYING THE FORMER Hefner home on Loma Vista Dr. are Walter & Caryl De Faria & their two little Miss Muffets, Lisa & Gabrirelle. Walter does public relations for St. Mary's, **both** he & his wife enjoy writing and are ready recruits to script skits for the community show.

SIGHTEM . . . Harriet Ainsworth, former Navy public relations officer, sitting solo during one sat's matinee showing of "Don't Go Near the Water," the movie about Naval JR personnel, natch!

HANDS ACROSS THE SEA . . . Orinda's Metzo Frances Groves Perry and her husband were down from Stockton last wk. to see about helping their German friend Peter Joust, a well-educated 31-yr. old actor who would like to come here for 4 mos. His board & room are guaranteed by Dr. & Mrs. Murray Groves. The only need is help by someone who will pay $450 for his passage from & back to Germany, and who Peter will assist in ANYTHING—tutoring German, etc. for 4 mos. Call CL 4-2286 for further info.

CALENDAR DATES . . . "Teahouse of the April Moon" will be the theme for the Miramonte Parents' Club annual bridge-dessert, Thurs., Apr. 24, Tkt, $125 or $5.00 per table, Res. w/Ruby Huntley, CL 4-2531. And next Sat. night, Mar. 22, Orinda Mothers Club dance, "Night in Neverland," $3 per couple, CL 4-3745, or at door at DI-ABLO!

A laddie with a twinklin' eye - -

The torrential rains didn't dampen the Welcome Mat on Loma Vista for Mary & Harold Johanson and their young son Rick who moved into the house formerly owned by the Robert Roths. Bob & Mike & their three, incidentally, have been enjoying life in Lake Forest and winter-time fun of sledding and ice skating.

A BRAND NEW HOUSE on Bates Blvd. for Ted & Nickie Toland and their practically brand new Laurie, aged 10 mos. . . . the couple just recently moved here from Oakland.

Speaking of babies, brand new, a fine broth of a boy and a third son was welcomed by Charles & Grace Hanks on Friday, Feb. 28 . . . and Monday, Mar. 10 marks the day that Ritchie & Claire Ward became grandparents for the first time. Congrats! (A grandson!)

NAMES, NAMES, NAMES . . . Orinda has a Neil Porter as well as a Neill Porter, a Reva Hart as well as a Vera Hart. Some of the titles suggested for a Community Musical Show have been "Mania in Sania," "SUPERBIA," "Dementia in Pretentia" and how about that? Have YOU a suggestion?

COUNTRY-VERSATILE FIGURE . . . The Lady loves books so channels her energies in THAT direction this yr. as Orinda School Library Chairman . . . The tall regal person of Vinnie Gilbert is a familiar sight at many community doings. The mother of four, she is ALL 100% for this "togetherness" business. Whatever the family can do together, skiing, camping, scouting, she prefers, but sewing & ceramics are her OWN particular pets. WHEN she has time.

Her favorite cartoon (it's ours, too!) favors her philosophy. THIS being the one of the two "nebbishes," slouched in chairs, feet on table, saying one to the other—"Next week we've GOT to get organized . . ." Vinnie finds, however, that on the rare occasion when she IS well organized, a family crisis generally occurs to upset the apple cart.

A pocketful of shamrocks

Born in the Philippines, she is MORE a native dghtr. of Cal, having grown up (and UP she grew, alright—almost 6') in the college town of Berkeley. She's married to John Gilbert (a v-p. of Zellerbach Corp.) who, w/four youngsters, keeps her hopping happily at their home on Hacienda Circle. Come to think of it, we've never seen Vinnie Hop—but we do know she attends the mothers' dancing classes. All the Gilberts like books, above ALL, enjoy Dr. Seuss for ANY-AGE family fun-reading. TOGETHER!

TODAY IS THE DAY we give Shamrocks away, for Monday's the Day a' the Green! To Kellys & Kauffmans, to Kirbys & Loughmans, to O'Briens & Ryans & Sheehan! Do a Jig for the times, Reillys, Gillivans, Grimes—McCormicks, McGahs, Kiss the Blarney! Colleen & Kevin, M. & R. Devin, and Champions, Duffys and Harney!

Sing ROSE OF TRALEE, for Murphy, McGee—for Becketts, Burkes, Boyles, Doyles & Dennings! Bring dear Paddy's Pig, to each Irish Shindig, Mahoneys, Maloneys & Hennings! DID YOUR MOTHER COME FROM EIRE, O'Connor, Maguire & O'Flaherty . . . and did your FATHER come from THERE, Kerrigan, Magrath, Moriarty?

Raise high the old Shillelagh stick, cut the corned beef nice & thick! (Cabbage we can do without!) Have yourselves a happy shout —BEGORRAH, once morra!

A LITTLE BIT OF IRELAND goes a long long way—you'll find EVERYBODY'S IRISH this next St. Paddy's Day!

CONSERVATION AREA—Children from Orinda School take a good look at the nature area, similar to those at other schools, behind their school. Examining the plot are, left to right, Mike Chance, Jimmy Cooper, Mike McGuire, and Bud Keeney, who is pointing out some of the natural beauty to his pals. The four decided to take a trek to the nature area as a part of Conservation Week which is now being celebrated here. Nature areas are maintained at many of the schools in order to afford children the opportunity to have a first-hand knowledge of nature and wildlife.—Sun photo by Mattson.

Easter Seal Society Relies On Volunteers

More than 1,000 volunteers gave 100,000 hours of their time to help crippled children and adults of Contra Costa County last year, according to Mrs. G. W. Luhr, president of the Easter Seal Society for Crippled Children and Adults of Contra Costa County.

More than 500 volunteers helped with last years' Easter Seal Campaign addressing envelopes, stuffing Easter Seal mail, distributing coin containers and posters, arranging window displays, and conducting special events such as the Lily Parade, Coffee Days for Crippled Children, and Icing Cakes with silver.

Many volunteers throughout Contra Costa County screened applicants for Easter Seal resident camping, interviewed their families, and gave assistance in making preparations for sending the children off to camp.

Hundreds of volunteers have had a part in the renovation of the Easter Seal Sheltered Workshop and Center either through financial aid or volunteer labor.

Screening of applicants for training in the Sheltered Workshop is, for the most part, the work of volunteers whose professional education and experience qualifies them to judge the potential of a prospective trainee.

Youth volunteers have been particularly helpful in working directly with crippled children.

"There is everything from a modern motion picture theatre to a supermarket and services offered from lubrication to hair styling," states the president.

"If you want to take care of all your shopping in one complete package and also receive all those services which are essential to the operation of a good household and maintain personal appearance, meet your friends at Rheem Center today," he added.

Here are the Rheem merchants:

Outdoor Education? Orindans Must Decide

What is the status of the proposed outdoor education site in The Sierras that the Orinda School District is considering developing?

Just what is an "outdoor education site" and what will it mean to Orindans in terms of cost and benefit?

The site is a seven acre parcel located between Fallen Leaf Lake and Lake Tahoe, about 115 miles from Orinda.

It will be given to the Orinda School District, without cost, by the United States Government, provided certain conditions are fulfilled.

Within one year from the time the offer was made (that was last fall) The Orinda School District must accept, or the land will be offered to another school district.

THE LAND IS offered under a 30 year contract. During that 30 years the school district must improve the land with sewer facilities, buildings, etc.

The district must submit a master plan of development of the site at the time of acceptance of the agreement, and must start some kind of construction and improvements the first year. Occupancy of the site must occur in the second year.

This is why the school district has allocated $750 to architects to study the site and prepare a plan.

This is not a unique thing. In 1955-56 there were 79 school districts participating in this U. S. Forestry Service program, called "Operation Outdoors." It is estimated that there are more than 100 now.

In 1956 there were 361 schools involved in the program, teaching 746 classes and more than 30,000 students.

IT IS A WONDERFUL program. It boils down to the simple fact that Orindans can participate in this program if they want to pay for it.

It is just like the family which must decide on purchasing a new car—should we get the same medium priced model we have been driving, or should we get a more expensive model.

While this program is excellent, and the government is providing a real opportunity to school districts which can take advantage of it, there is also the thought that any money which might be allocated to this program could, instead, be spent on basic education.

IT MIGHT, for instance, be spent on the elimination of double sessions, or on simple bread-and-butter items.

But in the long run, the decision must be with the people of Orinda, who will speak through their school board. The facts are becoming available, and a decision will have to be made fairly soon.

The Staff Corner

It Makes Good Sense

By DICK OSBORN

Well, the political fever is cropping up and speeches are breaking out in spots, like measles.

And so, to the candidate's quote department.

Candidate: John Nejedly.

Office: District Attorney.

Statements: Many, varied, and all of them interesting and tending to make a great deal of sense.

FOR INSTANCE, how about part time versus full time work for the district attorney and all the deputy district attorneys?

Nejedly said that if he is elected he will devote full time to the office. This means that he will have to give up his position as City Attorney of Walnut Creek and as attorney for the Central Contra Costa Sanitary District, as well as his private practice.

John stated, point blank, to a group of newspapermen Friday, that he would give up all this if elected.

That is quite a sacrifice for a $15,000 a year job. John agreed, but said that he felt that the district attorney's office needed a good, full time district attorney, and that it was time somebody stepped in to do the job. That's why he's running, he said.

How about the deputy district attorneys? They are civil service workers, and their rights are protected. According to law now in effect they have a right to carry on a private practice, as does the District Attorney himself.

NEJEDLY POINTED out that if he becomes DA he will require that the work for the district attorney's office be done first ,and that if a deputy wants to carry on his private practice he can do it after regular working hours—and at home or for some other office, but not with any of the county facilities.

Nejedly also said that if the deputy district attorneys would work at the job full time, as he feels they should, the department could operate with less deputies, who could consequently be paid more for their full-time work. That sounds sensible to this writer.

How about reduction of charges? This is frequently done by district attorneys because it makes an impressive conviction record look just dandy.

Nejedly said he would disagree with this wholesale practice, particularly where legislation provides specific penalties. If a judge wants to reduce a charge, that will be up to him, but Nejedly said flatly that as DA he would not ask for such action unless a conviction could clearly never be established.

He also pointed out that there would be a deputy DA, if he could not be there personally, to take each case to court. In the past, he noted, many officers, both sheriff's deputies and highway patrol officers, have had to appear in court themselves without help of counsel from the District Attorney's office to prosecute their own cases.

AS FOR TRIAL work and trying cases, Nejedly said he would do this personally—and he has had five years experience at trial work in Richmond under the District Attorney's office.

Frankly, it makes a great deal of sense. If Nejedly is elected, and puts these practices into effect, as he says, Contra Costa County might just end up with a decent District Attorney's office instead of what it has now.

Election Time Approaching So the Wind Still BLOWS

By PAT PENDING

Well, kiddies! Elections are approaching sometime.

I understand that there are so many candidates running for judge in Walnut Creek that there is some concern as to whether there will be anybody left to vote.

Then, there's the sheriff's race (and we won't tolerate any racial prejudice).

SHERIFF BROWN wants Orin to return the toggs to the Gondera Toggery and Orin has no use for toggs. Brown says he may take the matter before the the Grand Jury. Five will get you ten that he doesn't! He'll take the Grand Jury before the matter!

I've been thinking that I should run for sheriff. I been running from sheriffs for about long enough. I think that I'd make a good candidate. I don't know anything about multiple play pin ball machines or the pay offs. But, I've watched all the real good sheriffs on television and I know just what a good sheriff should do.

On the other hand, maybe I should run for judge. I was a judge once. I was trying a murder case. Something must have gone wrong, though, because the defendant went free and the jury was hung!

Would you vote for Pat Pending as County Recorder? I'd guarantee not to take many kickbacks.

Would you support me if I ran for D.A.? I've had my own telephone for years and my wife would never stand for me having a secretary—even if the county furnished her for nothing.

Maybe I should try for the Planning Commission. I have always liked working on commission and someone told me, those oil companies pay good.

OR, HOW ABOUT Pending for Housing Commissioner? I don't need any galvanized pipe and I never could balance myself on a motor scooter!

When you go to the polls just write my name in any blank space on the ballot and let's see how it all turns out.

Remember, a Vote for Pending is a vote for Pending!

It is estimated there are now about 4000 adult gray whales and 500 calves.

Letters to The Editor

FREEWAY

DEAR EDITOR:

Congratulations on your editorial of Friday, January 17 converning the need for something being done about the traffic mess at the west end of the Lafayette Bypass.

Expressed concern by the public will be of considerable help to the Diablo Highway Federation in discussion with the state engineers.

One correction: your comment that the supervisors had not mentioned the Diablo Freeway in their recommendations to the state was not correct.

On July 12, 1957, in the supervisors chambers at Martinez, the official request of the Board of Supervisors, the Contra Costa County Department of Public Works, joined with civic groups including the Diablo Highway Federation in requesting "full freeway" from Orinda Interchange to the west end of the Lafayette Bypass.

EDWARD M. ROWLAND

Editor's note: The Sun did not state that the supervisors did not recommend full freeway status for this portion of Mt. Diablo Boulevard. We pointed out that in the final recommendations this work was omitted. In the preliminary copy of the freeway status appeared as the third recommendation, but when the final recommendations were made, it was not included.

The explanation at the time was that the state was aware of this need anyway, so the official recommendaions of the board would be for other projects. In the final recommendafull freeway status between the tions the board did not ask for west end of the Lafayette Bypass and he Orinda Itner-

12-MONTH SCHOOL YEAR

Dear Editor:

As an aftermath of the recent refusal of a majority of voters to approve an increase in school tax limits, there is evident a good deal of breast-beating as efforts continue in the search for more money and expanded school facilities.

As long as I have lived in the community, watching the school population grow with it, I have found no evidence that administrators have given any serious thought to the possibility of making fuller use of existing facilities, as well as to expand them.

With due respect for the abilities and the problems that administrators have, I think there is room for some constructive thinking on this score, and I don't mean greater use of the schools for adult education, summer programs, or non-educational uses.

What has happened to studies made with the thought for introduction of a twelve month school year? Have they been filed? I know that teachers and administrators react to this suggestion with some violence, and that if such were introducted, there would necessarily be some serious readjustments required on the part of students, teachers, and administrators, but I also know that serious readjustments are being made in the pocketbooks of taxpayers.

I think it's safe to assume that we no longer need our children at home on the farm during the whole of the summer, when the farm work is heaviest. Might serve just as well if they had their vacation in spring, or late fall, or winter.

Perhaps there are other reasons for closing school plants during the summer, at least so far as regular attendance is concerned. If so, what are they?

If work is being done to introduce such an improvement in the use of the schools, I shall be happy to know of it. If not, don't you think it's time?

A Lesson in Poli Sci-- Important to All of Us

By Herman Silverman

Last November I received a post card from J. J. Frederickson which said: "You suggest in your column that our present form of county government is outmoded and mention that a charter form of county government should be adopted. Would it be possible for you to devote a future column to this type of government?"

I also received a letter-to-the-editor opposing the charter form of government. We could not use it in the letter-to-the-editor column because it was only signed "On the Ball." (Be sure to sign your name, which can be withheld if you deem it absolutely necessary.)

The reason I didn't answer Mr. Frederickson's request sooner is simple: I didn't have all the details on the charter form of government but I knew that a group was starting to study it. Since then, "The Organization To Study County Government" has been formed and several meetingse held. The next meeting will be later this month at the P.G.&E. Building in Walnut Creek. For further information, call Alvin Burton, chairman pro tem, in Concord.

This group, which wants additional members, is studying the charter form of county government and the feasibility of its application to our county.

Why a Charter County?

Recently Bill Zion prepared a brief report for the group. Bill is trained in public administration, was the Research Director for the County Taxpayers Association for four years before he ran for supervisor two yeas ago. His reports is titled, "Why We Need to Consider a County Charter."

This is an important problem; one that we may be facing in the not-too-distant future. Here is most of the report and I suggest you clip it for future reference.

For Cow Counties . . .

1. **BACKGROUND.** The county is now under the general laws of the state. These laws lay down one set of specifications for all counties in the state which are "general law" counties. This includes all the counties which have not adopted a charter.

These general laws set up many requirements and restrictions as to how officials are selected, how the county government is organized, and how various functions are to be carried out. Broadly speaking, these laws . . . were, and still are, intended for rural counties, treating the county essentially as a subdivision of the state government for carrying out rather unimportant administrative tasks.

In the intervening years the general laws have proven difficult to modify, although some improvements have been made. As a result, those counties that have changed in character from rural areas have usually adopted their own charters so as to meet their own increased local needs, as well as to modernize their governmental structure generally.

In fact, the attitude of the State Legislature toward counties complaining about the present provisoins of the general law is: "Why don't you go ahead and write your own laws via a charter?".

A charter permits a county to decide how its officials shall be selected and its government organized and operated, within very broad state limits.

Who is Using It?

Counties that have adopted charters are Los Angeles, San Francisco, Alameda, San Mateo, Santa Clara, Butte, Sacramento, Fresno, San Diego, San Bernardino and Tehama.

Marin and Sonomo Counties are currently considering charters. It should be noted that Contra Costa is now the largest county in the state without a charter.

2. **MAJOR RESTRICTIONS OF THE GENERAL LAW** Which a Charter Could Remove:

a) Under General Law we MUST elect the sheriff, assessor, district attorney, county clerk, recorder, coroner, public administrator, tax collector, treasurer, auditor and controller. With the exception of some budgetary controls, these offices are virtually independent of the Board of Supervisors and of any centralized management system.

b) The General Law does not clearly define or conclusively decide the responsibility of the Board of Supervisors for policy-making or administration, not only in relation to the elective offices named under "a" but also in relation to the control and co-ordination of all the other (appointive) county departments.

c) General Law does not permit the Board of Supervisors to delegate what administrative authority the Board does have to a professional manager.

d) General Law contains specific and awkward procedures for handling such functions as budgeting, planning, civil service, purchasing, etc.

e) General Law permits no flexibility in the composition of the Board of Supervisors. The number of Supervisors must be five and they must be elected by districts.

Delegation of Authority

3. **MODERN MANAGEMENT PRINCIPLES.** In either government or private business, modern experience indicates that effectiveness and economy require:

a) Centralization of policy-making powers and responsibilities in a representative board, with the powers and responsibilities clearly defined.

b) Delegation of administrative authority to a chief executive or manager.

4. **ACCOMPLISHMENTS OF CHARTER COUNTIES.** It should be noted that the primary achievement of charter counties has been the application of the two principles of modern management noted above.

a) These counties report: improved fixing of responsibility, greater flexibility and freedom of operation, better co-ordination, better budgeting, etc., as well as general efficiency and economy.

b) They claim better men are attracted into county government.

c) Facts indicate that charter counties are, on the average, doing more and spending less per capita than the general law counties.

What's With Us . . .

5. **THE SITUATION IN CONTRA COSTA TO-DAY.** We cannot apply the principles of sound modern management in Contra Costa County because we must operate under the General Law.

a) We must scatter important and inter-related policy-making powers and functions among a number of independently elected officials.

b) We cannot clearly define the powers and responsibilities of the Board of Supervisors (in relation to the entire and appointive offices) for policy-making or administration.

c) The Board cannot set up and give to a manager the administrative part of governmental operation.

6. **CONCLUSION.** Based on the foregoing generalities it would seem wise for the people of Contra Costa County to further study the advisability of a charter for this county.

Hailed as a tremendous success was the "Oriental Fantasy" presented by the Walnut Creek Junior Women's Club recently.

The Hotel Claremont was the setting for this lovely event which featured luncheon and fashions. The exotic hostesses who mingled among the guests wore authentic orietnal kimonos and colorful "chop sticks" and blossoms were nestled in their hair.

The programs carried out the same theme and the tables were decorated with miniature trees which had been sprayed with black lacquer and from which tiny lanterns hung. Under the trees adorably costumed oriental dolls were grouped. Some of the members and guests who enjoyed the afternoon were the Mmes. Howard Adams, Claude Smith, Harry Levy, Reed Smith, Gus Heicheria, Roger Black, Richard Nelson, Carlo Herrula, Fred Eitzel, Royal Treet, Joseph Rotunno, Laurist Olson, Ned Peirano and "Maggie" Stevens—who has recently come to this area as an interior decorator at Sterling's.

We proudly announce a new sponsor

The Cardinal unit of the Mt. Diablo Therapy Center is proudly announcing that it has, as its new sponsor, Mrs. Marguerite West of Lafayette. The unit recently welcomed four new members. They are Mmes. Carl Marino, Werner Petersen, Forrest Wilson and Chris Nicholsen.

Mrs. Dan Arena, a member of same, is a busy one this week for "Arena Craft" is exhibiting in the San Francisco Sports and Boat Show at the Cow Palace. The Arenas' main exhibit is their 1958 model pleasure boat of fibreglass. Dan Arena, a native of California, has an international racing and pleasure boat reputation, having won many Unlimited and Gold Cup Class races.

He has established numerous world records and at one time held the world's straightaway record for unlimited boats.

Mr. and Mrs. Donald Schultz and family left the rain behind them to visit friends in Carmel last weekend. It was warm and sunny there and they spent (IMAGINE!) their time on the beach.

The Werner Petersens and their two daughters, Sandy and Janet, spent a delightful weekend enjoying the winter sports and beautiful scenery at Yosemite Lodge.

Recently, Mrs. Larry Dini spent a most enjoyable evening in San Francisco where she dined at the St. Francis Hotel and then attended the ballet at the Opera House. Accompanying her were her mother, Mrs. Evelyn Dealey, her sister, Mrs. Dewitt Markham and her aunt, Mrs. Webster Street who was visiting from Carmel. This was Mrs. Dini's first outing since the birth of her third baby boy.

Just for—and it was—fun!

Members of the Lombardy Branch of Children's Hospital gathered, with their husbands, Saturday night at the Nels Hamberg home in Orinda for their annual "Just for Fun Night"—and FUN it was! Mainly this is due to the fact that the members, for this one affair of the year, do not lift a finger. The sumptuous buffet dinner was prepared and served by a catering service. Tables were set up for all sorts of card games and dancing was a must.

It was a sort of a farewell party for Caroline and Jim Reed, too, who leave for Europe tomorrow but promised to return in time for the Lombardy's famous pool-side dinner-dance at the Orinda Country Club in the late summer.

Some others there were Dorothy and Wayne Bentley, Sue and Allan Goldsmith (who are building next door to the Hambergs but will not be able to occupy their home until Allan, who is a Navy captain, has finished his tour of duty in Southern California), Merlon and Tom Howard, Gloria and Rudy Rasmussen and Ruth and Paul Romak.

Blossom Time will come to Orinda

The Lombardy Branch's next fund raising project is (also an annual event) their spring "Blossom Time" day at which time bridge-luncheons will be held in 10 Sleepy Hollow homes. Five lovely prizes will be presented in each home and the grand prize is another weekend at the "Mark Thomas Inn" in Monterey. Adele Dupuis was the happy winner last year. By calling Joyce Paulsen, CL 4-2284, one may arrange for tickets.

Home from a sun filled week at Palm Springs are Frances and Chuck Baumann of Orinda. They stayed at the Coronet Lodge, but strayed away for a few side trips including one across the border into Mexico.

The Lafayette Women's Club was most happy with the outcome of its "Swing Into Spring"—an affair celebrating the club's 21st birthday. They are now a bit closer to that club house which they want so badly and for which land has already been purchased. Spotted here and there in the L'Horizon Room at the Claremont were the Mmes. Neil Cornwall, Leona Court, Ray Fullerton, Alfred Haskell, Roy Hawley, Ernest Heckler, Oscar Huebner and Harold Mutnick.

A long "community letter" was received from Van and Stan Holmgren who are spending the year in Europe with headquarters in Geneva, Switzerland. Some of the highlights: Thanksgiving was spent in Stuttgart where turkey was served, but without dressing and cranberry sauce, the dinner seemed pretty tasteless.

In Oberammerau, wood carving is a specialty and the Passion Play is presented every 10 years. In Milan the Holmgrens found that Leonardo da Vinci's "The Last Supper" is absolutely indescribable! In Milan, also, they were very fortunate in obtaining tickets to see Maria Callas in La Scala for the operas which which are presented from December 6 to June 21 are sellouts from the start. Just before Christmas Van and Stan picked the children up at Villars and returned to Geneva to prepare for the holidays. Christmas was spent in a brand new and fabulous hotel in a tiny village in the Alps called Vercorin.

They were the first Americans to visit the village and they met many interesting people there from all parts of the world. Villars-Chesieres, where the Holmgren children attend school is one of the most famous ski resorts in Switzerland and both Lynne and Larry (the older children) have classes in the morning with skiing or ice skating on the program for each afternoon during the season. Van and Stan are now touring in Spain, Majorca and heaven knows where else!

Lots of local people involved

Quite a few "east of the tunnel" gals attended the Jr. Alliance Day at Castlewood last week. The atmosphere was tres Parisiene and the stress in fashions was on the chemise (no comment!). Upon the many tables had been placed the most unusually gay chapeaux fashioned out of honey-combed meal material and trimmed with spring posies.

A few of the guests were Mrs. Wesley Risedorph, who hostessed a table, and the Mmes. C. Richard Schoner, Charles Andres, Pat McKenzie and Michael Milliken.

Especially wanted to mention that Shirley (Mrs. Cal) Gold of Orinda was an outstanding model as she represented the Dental Auxiliary at its "Day at the Claremont" a Wednesday or two ago. All of the other models were professionals but Shirley took the so called "cake."

We thought it charming that the models carried colorful bouquets of spring blossoms and casually distributed them among the tables. Attending the Claremont's Wednesday shows is charming anyway you look at it—and it's happy news that the Therapy Center will have its day on May 7. Save the date!

Pavilion Theatre Named Project for Women's Group

"Widen your world" was the theme, and the proposed Pavilion Theatre in Walnut Creek was the chosen project in fine arts and community betterment reported on in the regular business meeting of the Crestview Junior Woman's Club held at Fairoaks School, Pleasant Hill on Tuesday evening.

Details of the work of this group of forty-six women over the past year were given by Mrs. John C. Taylor, president of the group, and several of her associates, including Mrs. Harold E. Knowlton of Pleasant Hill who is in charge of the project.

"Although the Pavilion Theatre should give the entire Bay Area a cultural uplift, we here in the immediate area will profit the most, and that is why we chose this as our year's project and are doing everything possible to make the theatre a reality", reported Mrs. Knowlton.

"Everything possible" added up to a considerable number of items in the report including staffing the Pavilion Theatre office during the entire year, which amounted to more than 5000 hours of volunteer time, contacting every PTA group in the District, a total of more than 40 groups, and "passing the word" about the value of the project to every junior and senior federated club in the Alameda and Mt. Diablo District, more than 84 clubs, involving a total of 6498 members.

The Crestview women also contacted all the mayors of the East Bay and obtained pictures and signed resolutions of approval for the theatre.

About this activity Mrs. Leo T. Pigott, District President said "We feel so strongly that the Pavilion Theatre will enhance tremendously the cultural life of this entire section of California that all the clubs in this five-county district have enthusiastically agreed to support this project."

In order to carry out all details of their chosen project the Crestview women, who had a total of some 90 children among them, pooled baby sitting,, and raised money for long distance phone calls and for mailing.

Mrs. Taylor, president of the club, who is a registered nurse with three small children of her own, worked in a hospital two nights a week in order to have extra money for the project.

Mrs. Robert I. Mather, State President of the Federation junior membership of 2906 Monticello Avenue, Oakland, also added support to the project. "Support of this type of project is the kind of volunteer activity which has brought so many community service awards to our clubs."

She urged anyone interested in this community facility to contact one of these club members or call at the Pavilion Theatre Office, 1511 Cypress Street, Walnut Creek.

Taxpayer Head Clarifies Stand On Zion Talks

Harry L. Morrison, Jr., executive director of the Contra Costa County Taxpayers' Association, and secretary of the West Contra Costa Taxpayers' Committee, an affiliate of the county group, said today that it had come to the attention of his group that William Zion, government research consultant, had been invited to present the arguments against the Richmond Elementary and High School Districts' proposed tax rate increase election and bond issue election at a number of public meetings in the West Contra Costa area.

Morrison stated that although his Association did not necessarily disagree with the arguments against the tax rate increase and bond issue proposals, he wished to make clear that Zion in nowise represented either the County Association or the Taxpayers' Committee in the local dispute.

Morrison added, "The position of the County Taxpayers' Association is, and has been, against unnecessary tax increases at every level of local government. But under the present policy of the Board of Directors of the County Association positions are taken only on matters of county-wide issue. And as the West Contra Costa Taxpayers' Committee has not taken a specific position on the matter, the policy of the county group holds."

Taxes Increase By 71 Per Cent Over Five Years

Harry L. Morrison Jr., executive director of the Contra Costa County Taxpayers' Association, announced today that a recent study had been completed by his group indicating that there had been a 71.8 percent increase in the property tax levy per capita in this county over the past five years.

Schools were cited as the governmental level of greatest increase with a total per capita increase of 122 percent. Special districts followed with an increase of 95 percent, while the county ranked third with a total increase of 68.6 percent, and cities had an increase of 50.4 percent in the same period.

In terms of property taxes levied the increase was from $28,200,000 in 1953 to $54,600,000 in 1958. The total property tax per capita levied this year was $143.46 as compared with $83.49 in 1953.

Chinese Fairy Tale Will Entertain Children

"The Land of the Dragon," third in the current season of plays being given under the auspices of The East Bay Children's Theater, will be presented at Stanley School auditorium in Lafayette March 22 at two performances. Curtain time is at 10:30 a.m. and 2 p.m.

This play is directed by Samuel Levine, who is the drama coach at San Leandro High School with a cast of his students and the story is based on an old Chinese fairy legend which has been specially adapted for Children's Theater presentations.

Costumes and sets have been designed by Jan Mauser and executed by members and volunteers of the East Bay Children's Theater whose ranks include many local matrons.

Among those having donated their time to bring real live theater to our younger set are Mesdames H. C. Gathings, George Krussi, David Bullen, Jack Lackey Jr., Will Hall, Charles Morrill, John Van Dyne, Nathan Grey, Clarence Overaa, Thos. R. Gaines, Robert Van Gelder and Rodney Saylor.

A limited number of single admissions will be on sale at the box office for 65 cents. Single tickets may also be ordered in advance and arrangements made for birthday parties and other large groups by calling AT 3-6158.

Captain Fortune is Feature Attraction to Value Festival

Fabulous Captain Fortune of KPIX Television fame will be the feature attraction during the Broadway Shopping Center, Walnut Creek, Festival of Values March 20-22.

The popular master of ceremonies, who also creates the Children's Page for the San Francisco News, will present four shows between the hours of 2 and 4, Saturday, March 22 at the huge shopping center which is located near downtown Walnut Creek.

Another feature of the three-day celebration will include the distribution of 15,000 carnations to visitors. Attached to each carnation will be a welcome tag. Hundreds of these tags are worth $1 to $5 in merchandise in the shops of leading merchants throughout the shopping center.

Between Captain Fortune's four free shows, free tickets will be distributed for rides on the Broadway Shopping Center Merry-Go-Round.

Captain Fortune is featured every Saturday over KPIX from 7:30 a.m. to 11:45 a.m., according to George Webster, chairman of the Broadway Merchants Association, sponsors of the Festival of Values.

Grodins Pres. is Easter Parade Judge

Arnold Michaels, president of Grodins, Bay Area clothiers, was recently named one of the three best?dressed retailers of men's wear. He was simultaneously selected as one of the judges in the Boardwalk Easter Parade at Atlantic City to select the best-dressed individuals at that event.

The honors were given Michaels by the National Association of Retail Clothiers and Furnishers at the organization's 40th annual convention.

David H. Freedberg, Samuel Levy, Brannon Morris, Irving C. Bluestone, and Gus J. Orwell, 1957 best dressed retail winners and the board of judges this year, made the selection.

Michaels is the first judge to be selected for this Atlantic City event from the west coast, the other two judges for 1958 being from the east.

Michaels was also elected second vice president of the National Association of Retail Clothiers and Furnishers at its convention in Chicago, putting him in line to become the first west coast president of this national association in 1960.

At the same time directors of the association voted the west coast as its convention site in 1960.

Michaels favors San Francisco if adequate hotel space is available. Otherwise, the convention will have to be held in Los Angeles.

DRAMATIC BACK treatment is featured in elegant, short dance dress for spring. It's of embossed cotton. By Pat Premo in "Everglaze."

Spring Sports Spurt forth as Basketball Dies

Baseball, Track Swimming, Golf, Tennis on Tap

Spring sports took the reins in the local high schools this week as crowds gathered to watch prep swimmers, trackmen and ballplayers do their stuff.

On the high school scene, the week's activities included three ball games, four track meets, and three swimming meets.

In baseball, a last inning rally put the Knights ahead 3-2 over visiting Vallejo High last Tuesday afternoon and Alhambra edged the Pleasant Hill Rams 4-3 Monday afternoon at Martinez.

The Acalanes varsity ball club opened the '58 season Thursday afternoon and showed typical early-season form when they dropped a 4-0 game to El Cerrito. It was the third contest of the season for El Cerrito.

The Miramonte baseball team makes its debut Tuesday when they play Amador at Pleasanton. Their next clash will be with John Swett High at Crockett on Friday, March 21.

IN SWIMMING, the Pleasant Hill swimmers got off to a late start because Coach Art Poulin just finished up with baseball after taking part in a tournament over the past weekend. The Ram Mermen took part in the Diablo Valley Relays Wednesday at Mt. Diablo High but were hardly ready for top competition.

Next Wednesday, the Rams host Pacifica and Pittsburg and on Friday they enter another three-way meet at home with Richmond and Washington of San Francisco.

Swimming at Hayward on Wednesday, March 5, Las Lomas swamped the Farmers varsity 71-23 and then took the Bee meet 56-21. On Friday, March 7, they rolled up a 70-25 varsity win over Berkeley High and did a repeat with the Bees winning 65-12.

ON THE CINDER tracks, Miramonte opened the season yesterday in a three-way at Martinez with Alhambra High and John Swett of Crockett. Results were received too late for publication. The team will hold their first home meet of the current season next Thursday afternoon when they host Albany High

The Pleasant Hill Rams opened the season when they wrapped up wood 75½ - 34½ and did equally well in the Bees, 82-30

Antioch copped a three-way meet last Friday in competition with Pitt and Las Lomas. Score: Antioch, 66; Pitt, 40½; Las Lomas, 33½. Pitt won the Bee meet.

The Acalanes Varsity copped a three-way meet from Vallejo and Encinal of Alameda last Friday. Dons, 61 Encinal, 40½, and Vallejo, 38½.

Plenty of Hoop Play Left For Fans on College Level

by ERWIN MATTSON

Basketball wound up official league play, but the fans prep and collegiate have a full schedule on tap this week end.

The collegiate National playoffs started at Cal last Wednesday and move to the Cow Palace in San Francisco where play will take place tonight and tomorrow.

THE PREP TOURNAMENT of Champions holds forth at the University of California Gym with Mt. Diablo High representing the local league.

They had a warm up game with COP Frosh at Diablo last Friday and while losing 39-27 in a low scoring game look to be ready for tournament play.

☆ ☆ ☆

Pleasant Hill took part in an invitational hoop tournament over the weekend as did Pittsburg in another tournament.

PITT WON the consolation bracket while Pleasant Hill wound up last, but Coach Art Poulin stated it was one of his best coaching experiences as players stayed in private homes and found the contact refreshing and valuable — all in all — he summed it up as a wonderful experience for all hands concerned with emphasis on play and meeting others rather than the sole purpose of winning.

☆ ☆ ☆

The Rams and Diablo Devils spring sports will pick up next week when the baseball players report.

One hand Pleasant Hill baseball coach Lyle Palmer is looking forward to getting is Tom Larscheid who gives promise where the Rams need it most — in the pitching department.

A FAST BALL plus good control has brought smiles to Palmer who has a well balanced club if he gets hurling.

Speaking of names that go with the sport — how about Sid Quick of Pleasant Hill, an outstanding Bee sprinter.

Las Lomas appears to be the team in the swimming sport to beat. Both varsity and bees are outstanding.

THREE IN ONE—Captain Bob O'Neil of Oxnard holds the flag for three members of the St. Mary's College golf team as they do some practice putting at Meadowbrook. The country club in Pleasant Hill will be the home course for the Gaels. Left to right, O'Neil, Tom O'Neil of Oxnard, Bob Heaton of Antioch and Bill Celli of Piedmont.

WORD TO THE WISE GARDENER

Most gardeners like to save money, and here's an opportunity you can't afford to overlook:

On sale now at 20% off regular prices: **Roses, Fruit Trees, Berry Plants and Grapevines.** As we mentioned in this column before, these are not odds and ends — they're all popular varieties and still available in a generous assortment. Gus Brower invites your inspection because we know "seeing is believing."

While we're speaking of bargains, we want to remind you that our Camellia Special is still going strong. Selected varieties in 1-gallon containers for $1.49 (regularly $3.95) and 5-gallon containers for $3.95 (regularly $8.95). Bob Murray will help you choose the kinds you will enjoy the most.

Spring bulb planting season is now in full swing. Now is the time to set out **Gladiolus, Tuberous Begonias** and **Dahlias.** Bob Cowden says come in and check the new varieties and colors. You will see lots of new faces, as well as the best of the old favorites. All are pictured in natural colors to make selection easy.

Want some color without waiting? Get immediate results with our Cyclamen and Primroses, in bloom right now. And it's only days before our quick-growing Annuals will light up your garden. They're home grown, so we know they are good. Be sure to protect them with Bug-Geta pellets, the most efficient killer of snails and slugs!

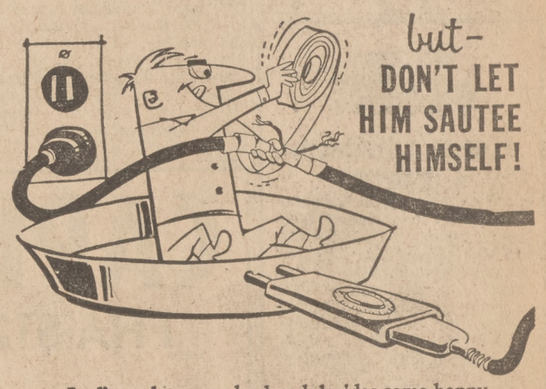
Enjoy MORE POWER but- DON'T LET HIM SAUTEE HIMSELF!



Ladies, when your husband decides some happy Saturday to work on the electrical wiring in your home—stop him before he sautees himself.

A husband who is cooked medium rare, as several local husbands have been in the past year (working on wires near water pipes), is no good to you or to the children.

When an untrained person touches electrical wiring, he endangers his life, voids most fire insurance policies, and often does not even save money.

The cost of buying the wrong materials, the cost of left-over materials, the time, inconvenience, and danger involved make it far more advisable to call an electrical contractor using qualified electricians.

Christian Science Churches in this area at 22 Orinda Highway, Orinda and 1247 Locust in Walnut Creek. The Christian Science Society in Pleasant Hill meet at Church on Gregory Lane.

Scriptural readings in the Lesson-Sermon on "Substance" will include the following from James (2:14): "What doth it profit, my bretheren, though a man say he hath faith, and have not works?"

Among the correlative passages to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy is the following (323:13-18): "In order to apprehend more, we must put into practice what we already know. We must recollect that Truth is demonstrable when understood, and that good is not understood until demonstrated. If 'faithful over a few things,' we shall be hade rulers over many; but the one unused talent decays and is lost."
